Subject: Revised Draft RI Section 10 outline and Example Text for CSM
Attachments: Draft Re-org Sect 10 outline_20141113.doc; Draft Sec10_PCB CSM Text_20141113.doc

Kristine:

During our October 31 technical meeting regarding potential revisions to RI Section 10, you suggested a reorganization of Section 10 and asked the LWG to provide a draft write-up of the contaminant specific CSM text interwoven into the site-wide CSM information. Attached please find a draft outline of Section 10 based on your suggested reorganization and a copy of our proposed CSM text that is formatted within your suggested reorganized structure and includes an example for PCBs.

Please review these two documents and let us know if we captured your reorganized structure accurately, and whether the general content and level of detail of our revised CSM text is acceptable. Gene and I are happy to arrange a meeting or conference call to walk you through our suggested edits. If we come to agreement on the structure and level of effort then Integral will move forward with generating proposed text for the remaining 12 indicator contaminants.

Thanks,

Jim McKenna
